

Community Consultation for the Halifax Regional School Board

10 Year Facilities Master Plan

- Introductions
- Project Overview
- Community Consultation Process
- Background Report Summary
- Community Consultation No. 1

Agenda

- Maureen O'Shaughnessy
 - CS&P Architects, Consultant Team Leader
- Ron McKnight
 - McKnight & Associates, Community Consultation
- John Heseltine
 - EDM, Planner
- Sairah Tyler
 - EDM, Planner
- Charles Clattenburg
 - Halifax Regional School Board, Director Operations Services
- Geoff Cainen
 - Halifax Regional School Board, Director Program Services
- Delaine Clyne
 - Halifax Regional School Board, Planner

Introductions

In her annual report for the 2006-2007 school year Halifax Regional School Board's Superintendent Carole Olsen said:

“Our vision for improved student achievement reaches into every aspect of the board's operation because it demands that we put students – and their success – at the centre of everything we do”.

Project Overview

Imagine
Our Schools

HRSB has outlined seven strategies to make every school a great a great school:

- Strong Vision
- Effective Planning
- Student Voices
- Active Partnerships
- Genuine Equity
- Exceptional Employees
- Adequate Funding

- HRSB is experiencing the challenges of:
 - aging facilities
 - declining enrolments
 - unpredictable regional development
 - limited funding
- The effects are:
 - excess capacity in many of the board's schools
 - overcrowding in others
 - difficulty in properly providing school programming, modern technology, arts and music opportunities and physical activity options.

In June 2007 HRSB received a letter from the Nova Scotia Department of Education stating:

*“The Halifax Regional School Board and the Department of Education agree that it would be timely and helpful if the Halifax Regional School Board **undertook a review of proposed projects, under utilized space and changing demographics for the Dartmouth/Eastern Passage area and Halifax Peninsula** prior to the Department of Education and provincial Cabinet considering the most recent School Capital Construction Report”.*

Project Overview

Imagine
Our Schools

- In response to the Department of Education directive HRSB initiated the Community Consultation Process:

- Introductory Public Information Meetings
 - June 14, 2007 at St. Patrick's High School
 - June 25, 2007 at Dartmouth Sportsplex

Phase 1

- Peninsula Halifax and the Eastern Central HRM (2007 -2008)
 - Citadel High Family
 - Dartmouth High family
 - Prince Andrew High Family
 - Auburn Drive High Family
 - Cole Harbour District High family

Phase 2 & 3

- North Central HRM, Western HRM & Eastern Rural HRM (2008 to 2010)

The community consultations will provide an open forum to allow the community to participate actively in determining the vision and direction for the future of their schools.

Community Consultation

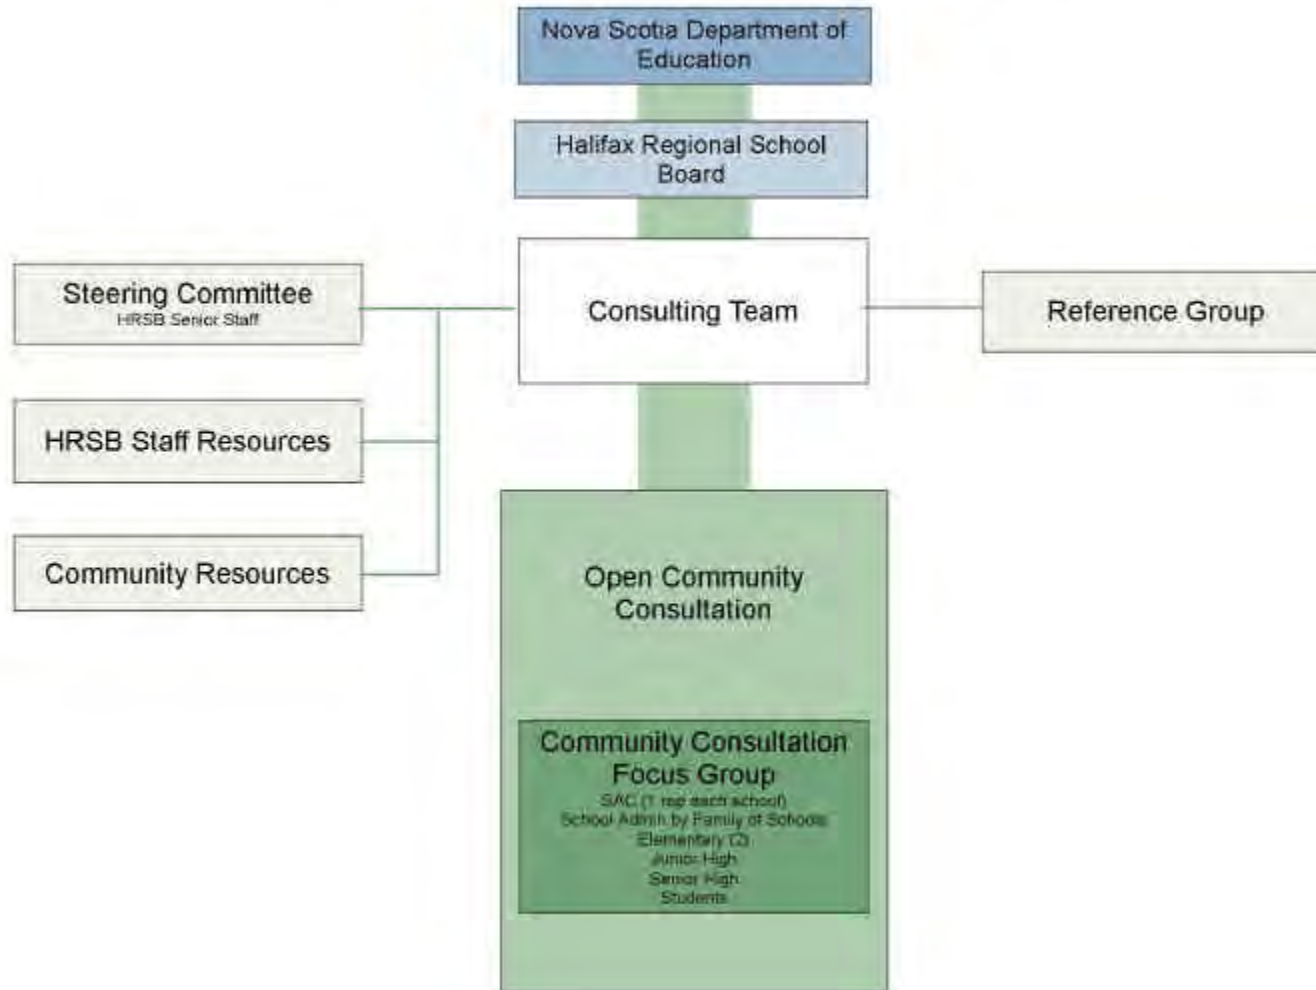

Imagine
Our Schools

- The process designed to foster a true spirit of **consensus building** in the decision making challenges that the board faces in developing a facilities master plan
- The values of each community must be determined collaboratively
 - This community partnership will produce more systematic recommendations incorporating **a broad range of the community's physical, social, cultural, economic, organizational and educational assets.**
 - Authentic community consultation instils **a sense of ownership** which is a key factor in sustaining school improvement efforts.

Community Consultation Draft Organization Matrix

Community Consultation

Imagine
Our Schools

Community Consultation Timelines

- Independent School Facility Planning Consultant retained by HRSB to facilitate community consultation process and make recommendations for the 10-year Facility Master Plan - September 2007
- Meet with HRSB senior staff, operations, administration, programming and communications staff – September 2007

HRM Planning Review

- Review of approved HRM Regional Master Plan and HRM by Design with HRM Planning staff – September 2007

Preparation of Backgrounder Report - October 2007

Community Consultation

Imagine
Our Schools

Meeting with Reference Group

- Review of process and Draft Background Report – October 2007

Meeting with Local Politicians

Meeting with Community Focus Group (SACs)

- Review of process, Draft Background Report and preparation for role in Community Consultations – November 2007

Community Consultation 1

- **Community consensus on student and facility needs to improve student achievement**
- November 13, 2007 Eastern Central HRM
- November 14, 2007 Peninsula Halifax

Development of Facilities Options - November 2007

Community Consultation

Imagine
Our Schools

Meeting with Reference Group

- Review proposed facilities options

Community Consultation 2

- **Review and community feedback on proposed facilities options**
- December 3, 2007 Eastern Central HRM
- December 4, 2007 Peninsula Halifax

Preparation of Draft 10-Year Facilities Master Plan – Dec 07/Jan 08

Community Consultation

Imagine
Our Schools

Community Consultation 3

- **Review and community feedback on Draft 10-Year Facilities Master Plan**
- January 22, 2008 Eastern Central HRM
- January 23, 2008 Peninsula Halifax

Submission of the 10-Year Facility Master Plan to the Halifax Regional School Board - March 2008

- Submission of Capital Requests & identification of schools for DOE school review process

Community Consultation

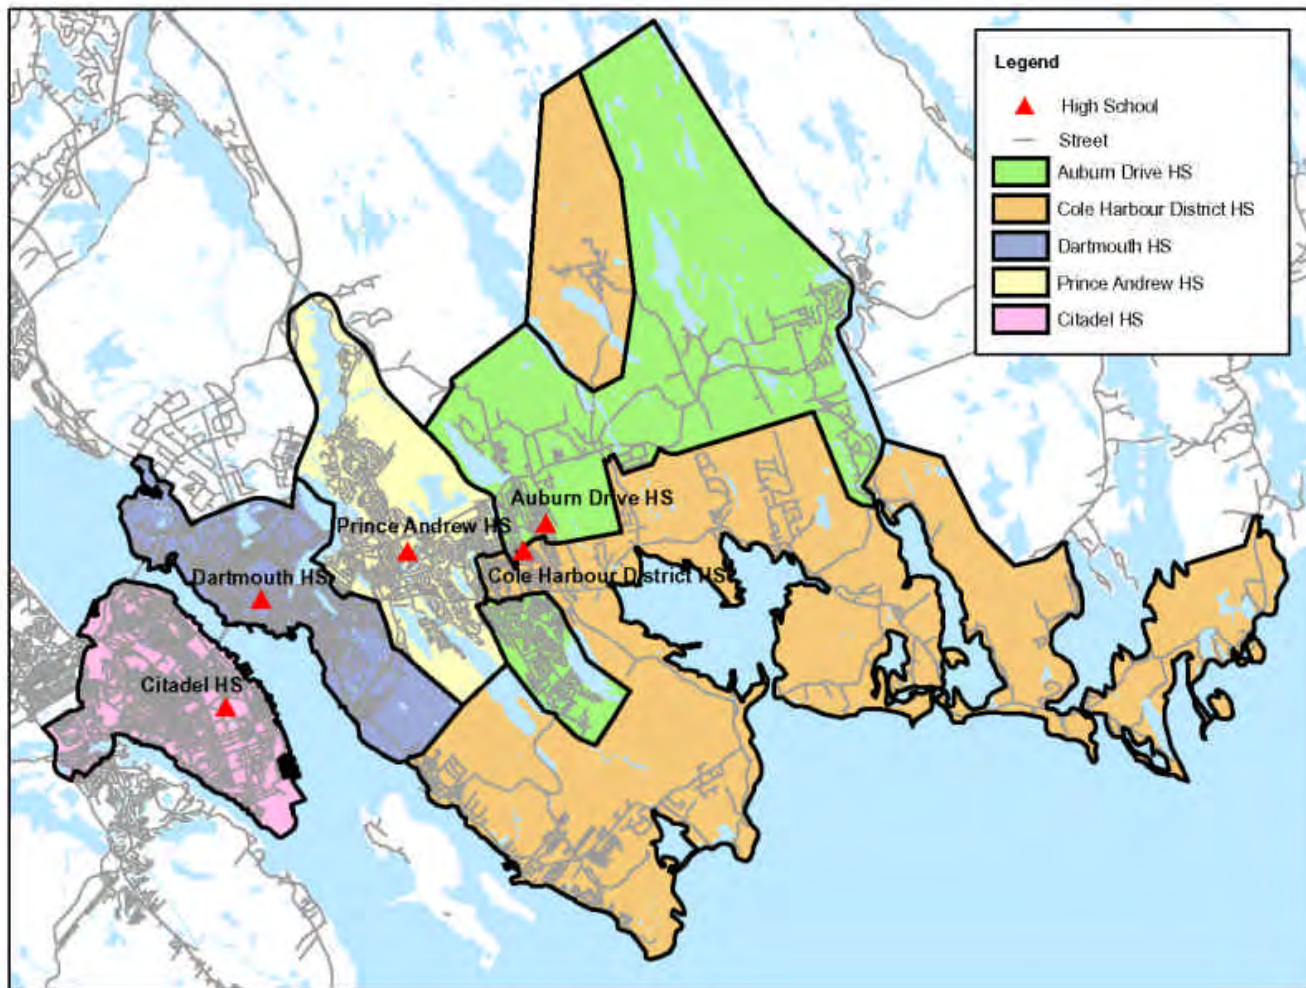

Imagine
Our Schools

- The purpose of the Background Report is to provide HRSB and the community with baseline information regarding the state of the regions' school facilities including:
 - a demographic profile of the region
 - historical and projected enrolments
 - capacity information & utilization rates
 - Facility Program Delivery Review for each school

Halifax Regional Municipality Demographic Information

Historical

The total population of Halifax Regional Municipality (HRM) increased by 8.8% from 1996 to 2006; however, during this same period the age 5 to 19 population decreased by 0.9%. The age 0 to 4 population has decreased significantly from 6.6% of the total population in 1996 to 4.9% of the total population in 2006. The following table shows the population structure of HRM for the 1996, 2001 and 2006 Census.

	1996		2001		2006	
Age Cohort	Population	%	Population	%	Population	%
0 to 4	22,460	6.6%	19,925	5.5%	18,205	4.9%
5 to 9	23,675	6.9%	22,365	6.2%	19,645	5.3%
10 to 14	22,040	6.4%	23,685	6.6%	22,325	6.0%
15 to 19	21,190	6.2%	22,905	6.4%	24,340	6.5%

Section 3: Halifax Regional Municipality Demographic Information

Projected

The age 5 to 19 population comprised 17.8% of the total population in 2006 with this value is estimated to steadily decline to 13.4% in 2021. The age 5 to 19 population will decrease due to the lower age 0 to 4 population that will move into the older age cohorts. The age 0 to 4 population is expected to remain stable due to a projected value of approximately 3800 live births per year. The following table shows the projected population structure of HRM until 2021.

	2006		2011		2016		2021	
Age Cohort	Population	%	Population	%	Population	%	Population	%
0 to 4	18,205	4.9%	18,104	4.7%	18,311	4.6%	18,368	4.5%
5 to 9	19,645	5.3%	17,957	4.7%	17,873	4.5%	18,080	4.5%

Section 4:

Halifax Regional School Board Overview

Historical Enrolment – 1998/1999 to 2007/2008

Over the past ten years the total student enrolment in the Halifax Regional School Board has shown a steady decline with a more significant decline within the past four years. As of 2007/2008 enrolment has decreased by 5,642 students from the total enrolment of 58,297 in 1998/1999. This is highlighted by a drop of almost 1,000 students within Primary, which is now being experienced across other grades.

The following table and chart show the historical enrolments by grade for the Halifax Regional School Board.

Historical Chart

Section 4:

Halifax Regional School Board Overview

Projected Enrolment – 2008/2009 to 2017/2018

Over the next ten years enrolments are estimated to continue to decline with more significant declines anticipated in the short term. The construction of new housing is helping to mitigate some of the decline as has occurred during the past ten years. The projections indicate a decrease of 5,996 students by 2017/2018.

The following table and chart show the projected enrolments by grade for the Halifax Regional School Board.

Projected Chart

Facility Program Delivery Review

- Evaluates how well a facility serves the academic program offered
- Does not refer to:
 - the quality of the school's academic programs
 - success of the students based on test scores
 - physical building conditions (Arch, Struct, Mech, Elec)
- Assessments referred to DOE standards
- Meet HRSB's vision "to make every school a great school"

Nova Scotia Department of Education Facilities Design Standards

- **School design must provide flexibility of learning spaces:**
 - variety in size of learning spaces recognizing that learners, teachers and others engaged in learning experiences will work in groups of different sizes
- **School design must accommodate learners' diverse learning styles and preferences:**
 - each classroom and school ground will allow optimal opportunity for the use of a range of communication modes and activities
- **It is essential that classrooms:**
 - are large enough
 - are furnished appropriately to allow learners to shift from individual activity to triad and small group learning experiences
- **School design needs to reflect the importance of technology in all subject areas**

HRSB's vision “to make every school a great school”:

- Ensuring that students have reasonable access to a **full range of program** offerings to foster **equal opportunity**
- Considering the **impact of the facility** on the ability to deliver the program
- Maximizing **operating efficiency**
- Maintaining a **viable school presence** in each community
- Recognizing that **community consultation is essential**

Community Consultation No. 1

Imagine
Our Schools

Process

- 3 former principals visited each school supervised by the Consultant team
- Each of the 61 school principals was interviewed
- Detailed assessments were completed for :
 - **Site Conditions:** safety & security, traffic circulation, play areas, garbage & loading
 - **Education Areas:** classrooms, learning support, art, music, drama, technology, family studies, library, gym
 - **Support Areas:** administration, student services, food services, custodial

Section 7:**Facility Program Delivery Review****School Name:** Citadel High**Family:** Citadel High**School Profile**

Grades Housed	Gr. 10-12
Enrolment Sept. 2007	1389
Capacity	1200
Utilization Rate	116%
Building Area	220,001 sq.ft.
No. of Storeys	3
Elevator (Y/N)	Y
Site Size	5 acres/ha
Date of Construction/Renovation	2006

Site Conditions

- limited access to playfields
- limited parking

Educational Areas

- proximity of Library, Gym to academic spaces

Support Areas

- Learning Centres segregated for academic areas

Family - Citadel High**School Name:** Cornwallis Junior High**Family:** Citadel High**School Profile**

Grades Housed	Gr. 07-09
Enrolment Sept. 2007	239
Capacity	360
Utilization Rate	66%
Building Area	42,367 sq.ft.
No. of Storeys	2
Elevator (Y/N)	N
Site Size	2.5 acres/ha
Date of Construction/Renovation	1950

Site Conditions

- limited parking
- traffic circulation issues – student drop-off

Educational Areas

- classrooms undersized
- limited Learning Support & small group rooms

Support Areas

- no cafeteria
- limited storage

Role of the Community Consultation Focus Group (SACs)

- selected to represent each school including:
 - students, parents & administration
- assist in encouraging broad range of community representation
- insight into specific community concerns
- facilitate group discussions at the community consultation

Community Consultation Format

- Opening session – presentation of the **Imagine Our Schools** objectives, process & background/support material
- Break into small groups
 - Individually respond to questionnaire
 - Group response to questionnaire through consensus building
- Summary of Results

Questions

- Grade Configuration
- Class Size
- School Population
- School Boundaries
- Schools of Excellence
- Alternative Education
- Instructional Delivery Models
- Shared Facilities
- Transportation
- School Daily Schedule
- Environmental Issues
